

## Response Summary:

### 1. Student Information \*

<b>First Name</b>	Rae
<b>Last Name</b>	Fu
<b>Major</b>	Animation and Visual Effects
<b>Course</b> (e.g. CGT 270-001)	CGT 270-004
<b>Term</b> (e.g. F2019)	S2022

### 2. Email Address \*

(University Email Address is required.)

fu345@purdue.edu

### 3. Visualization Assignment \*

- Homework Assignment

### 4. What is the name of the student you're critiquing? \*

<b>First Name</b>	Rae
<b>Last Name</b>	Fu (the critique is by a friend, documented by me)

### 5. What is the email address of the student you're critiquing? \*

fu345@purdue.edu

### 6. How many visualizations are you critiquing? \*

- One

### 7. Question 1:

What is the breakdown of occupations for African Americans?

### Critique Question #1

What is the breakdown of occupations for African Americans?

### 10. Who is the intended audience? \*

People interested in which occupations have a high amount of African Americans.

## Evaluate View 1

### 11. Does the visualization in View 1 answer the question? Explain \*

Yes, there are different circles that show the amount of African Americans in the occupation.

### 12. Is the visualization in View 1 appropriate for the intended purposes/audience? Explain \*

Yes, because it shows what they are looking for.

**13. Is the visualization in View 1 effective? Explain \***

Yes. It answers the question in a simple way.

**14. Is the visualization in View 1 the right chart type? \***

Yes.

**15. List one thing that is done well in View 1. \***

The different color makes it easy to see the different occupations.

**16. List one thing that could be done better in View 1. \***

The clutter caused by the circles.

**17. Recommendations for refining View 1. \***

Narrow down the occupations to top 7.

## Evaluate View 2

**18. Does the visualization in View 2 answer the question? Explain \***

Yes, the largest box would be the answer to the question.

**19. Is the visualization in View 2 appropriate for the intended purpose/audience? Explain \***

Yes, it shows the as for view 1.

**20. Is the visualization in View 2 effective? Explain \***

Yes, the visualization is clear and simple.

**21. Is the visualization in View 2 the right chart type? \***

Yes.

**22. List one thing that is done well in View 2. \***

It is very obvious which occupation has the most versus least.

**23. List one thing that could be done better in View 2. \***

Make sure all the boxes have labels on it.

**24. Recommendations for refining View 2. \***

Mention that the boxes are percentages.
